87087419651

EDUCATION

Nazarbayev University

B.A Computer Science

Expected Graduation: May 2022

Relevant Courses:

Performance and Data Structures, Computer Systems & Organization, Programming Languages , Algorithms, Formal Languages, Discrete Math, Probability, Linear Algebra, Artificial Intelligence, Database Systems, Software Engineering

SKILLS

Languages: Java , JavaScript, C++, Python, HTML/CSS, Bootstrap.

Frameworks/Technologies: Node.js ,Express, MongoDB, Mongoose, Git, React.

EXPERIENCE

I am third year student and during these 3 years I have tried to work on my skills by participating online platforms to improve my skills such as solving problems(acmp , leetcode, codeforces) solved over 300 problems and completed online platform Javarush(learned Java). In my free time I bought several Udemy courses to enhance abilities in a various areas. So I would say I am curious to use my abilities in real work.

PROJECTS

Personal and Staff website | Full Stack

- Created personal website using HTML/CSS/jQuery
- Created personal informational(about universities) website using Node/Express, MongoDB/Mongoose, HTML/CSS and Pug to template engine (All these works uploaded to github).

Portfolio

<https://zhassulan-ba1e0.web.app> – used technologies – React, deployed using Firebase.
